

Nyasha Chiwutsi

Senior Software Developer

Experience

Senior Developer

eSimplified · Sep 2023 – Present

Leading development of modern web applications using Next.js and TypeScript, integrating Sanity CMS for content management, implementing payment solutions with Stripe, and deploying scalable infrastructure on AWS and Vercel.

Studio Engineer

Real Estate Works · Mar – Jun 2023 (Contract)

Implementing the technical requirements by integrating and developing all of the various components into a cohesive and centralised front-end environment.

Lead Frontend Developer

AfriBlocks · Nov 2021 – May 2022 (Contract)

Building the new freelancer platform by creating and enforcing the development patterns, user experience design and collaborating with a fully remote team across Africa.

Senior UX Engineer

SCS Cloud · Jul 2020 – Jan 2021 (Contract)

Creating wireframes/prototypes, writing front-end code and visually articulating product initiatives: UX perspectives and frontend implementation.

Frontend Developer

DigsConnect · Mar 2020 – Jun 2020 (Contract)

Creating mockups (UI), designing the user experience, design implementation and functional programming of all the features in the new web app as well as API/data requirements.

UI & UX Designer

Trust My Travel · Apr 2019 – Feb 2020 (Contract)

Designed data-driven user interfaces and improving the user experience of the TMT web app. My role spanned all the way from visual designs and implementation to UX design and consulting.

Digital Experience Designer

Kurtosys Systems · Sep 2017 – Mar 2019 (Full Time)

Designed and developed financial data management applications including fund explorers, visual data tools for financial service businesses.
